

Life Activation

Life is all about energy... Getting anything done requires energy to make things happen. What if there is a source of energy untapped that lies within you? The mystics referred to this as your original divine blueprint; today we refer to this as our DNA.

How do we unleash the potential of this DNA? Science shows us that we only use 4-6% of our brain capacity. How do we use more of our brain, how do we tap into our potential? If the capacity of the DNA can be opened, we can start a journey to experience much more to life. There is a process that has only been made available to everyone for just over a decade: an ancient process that awakens dormant DNA and starts you on a process to integrate this potential into your life!

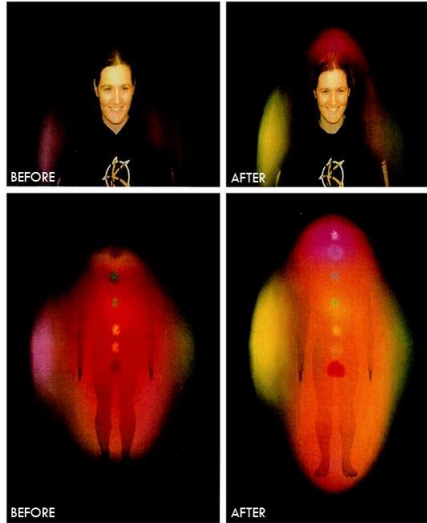

Simply put, the Life Activation (formerly called the DNA Activation) is a powerful healing modality that enables you to access your potential in life and allows you to see and progress in your journey of growth.

This time-tested method has inspired people to move past barriers and achieve breakthroughs in their daily lives. It infuses your body with pure Light, making it's way through blocks, issues, and weaknesses that we may not even be aware of. It is a step to becoming who we truly are.

The Life Activation can be described as a light shining into a dark corner. It makes visible what was hidden in the shadows, but more than that, it gives you the ability to work through what you see. It is a most empowering experience that has helped transform the lives of thousands of people just like you!

This modality, or method, of healing is one of the foundations of human progress and growth!

The benefits

The benefits from this powerful and truly transformative healing modality are countless. Some of the great benefits (but not all of them) include:

- Relief from anxiety and stress
- Becoming physically infused with Light
- Allowing you to see more clearly who you are and where you can go
- Greater physical energy and mental acuity
- Increased emotional stability
- Strengthened immune system and response
- Assistance in breaking of old unhealthy habits (like smoking, etc.)
- Increased brain function and thought clarity
- Assistance in increasing personal abundance
- Assistance in creating positive relationships

This is a 1 hour session that includes an alchemical water based formula (called Purificato & Crystalis) to assist the body to assimilate this extra light and yield faster results.

The Life Activation actually affects your ancestors and descendants 3-4 generations backwards and forwards, even sideways as in siblings etc. The activation is communicated through genetic pathways that are shared with your ancestors and descendants. So, matching DNA in your relatives will be activated. Frequently, this means that sensitive relatives will sense that something has changed within themselves. Spontaneous healings frequently occur in the family when one member has a Life Activation.

History & context

Your DNA contains the blueprint for who you are as a Divine Being. It is God-given, holy, sacred, and defines the uniqueness of you.

Initially the Life/DNA activation was used as a rite of passage in the ancient mystery school traditions to activate high priests and priestesses, prophets, and oracles. Activation to the 22nd strand has been handed down from the time of King Solomon to trained initiates and is now being offered to bring humanity into full empowerment.

You are now moving beyond the type of body for which the human being was originally designed. You are moving out of the mere human experience and into a different level of being.

The Life activation will in time give you access to the secrets and mysteries of who you are and what your purpose is.

A full Life Activation session consists of the following parts:

- Energy balancing
- DNA Activation
- Reading based on what was found during the energy balancing and DNA activation

An Energy Balancing session includes the following:

- Removal of a crown chakra cap (if any) – this blocks access to the Light
- Clearing of the central core through toning a sacred name of God
- Balancing of the Central Core
- Balancing & opening the 16 energy gates (Lotus Petals) that result in increased energy flow
- Balancing and healing of 4 elemental bars and elemental energies in the aura (earth, water, air, fire)
 - Balancing of magnetic and etheric energies
- Balancing chakras
- Negative crystal removal

Purificato & Crystalis is received with the Activation to help with detoxing & integration. As toxins are released from the DNA (genetic, environmental & emotional debris), the elixir neutralizes the effects these toxins will have as they are moving out of the system
